Suggestion for Semester - I	
1	Accounting and financial management, this subject is not a preferable one!
2	Need updated programming languages.
3	DBMS
4	Ok
5	No changes
6	I had a good academic environment. Thanks
7	Artificial intelligence
8	No need to change anything, all topics are relevant to course.
9	I think PSA shouldn't have enough.
10	All topics covered
11	Accounting and financial management. Can modify this paper according to our degree stream.. I feel it's is irrelevant to this course. 1st semester class are mostly done in both online and offline classes so students can't able to understand this paper. Because most of the students comes from computer science domain. They don't know basics of accounting.. & problem solving approach can make this paper in upgrade format in current technology
12	The course is explained and finished in time, method of teaching is good.
13	Nil
14	Teaching is efficient
15	In syllabus add the python subject
16	Mathematical foundation
17	no improvement needed

Suggestion for Semester - II	
1	Advanced data structures and algorithms
2	All correct
3	All covered
4	All given topics are good
5	All these five subjects are good enough!
6	Change Java Programing into Advanced Java Programming with(react JS, spring boot, etc.,)
7	Elective paper can be modified to some other courses title according to MCA degree can bring new technology paper for the students comparing to CSE /IT syllabus MCA curriculum syllabus has been same. There is no difference between CSE/IT and MCA. And EEC course has to be changed to different methods. And give some new course to the students in Ethotech labs.
8	Everything is good
9	Give choice to student too select their elective papers.
10	Good
11	If you want to added topic please sir. Briefly added the more in WAD
12	MFCA
13	No changes

14	No Doubt
15	no improvement needed
16	No need to change anything, all topics are relevant to course.
17	No suggestions
18	None
19	Nothing
20	Teaching is good
21	Web application development should be divided into different subjects like JS(Node JS ,React JS, Express JS,JQUERY ) , HTML and CSS
22	When choosing an elective paper, it will be preferable if the Department offers at least two course options.

Suggestion for Semester - III	
1	All correct
2	all the topics are covered in time
3	All these subjects are good enough
4	C# and .net It's has already
5	Covered all
6	Good
7	Good
8	Machine learning
9	Machine learning
10	Machine learning & agile software development/big data Has to be modified for some papers the classes will not be taken as per the day. It's little hard to understand those papers
11	No changes
12	no improvement needed
13	No need to change anything, all topics are relevant to course.
14	Please Remove Elective Course , Add Technical Papers like python, IOT
15	Specially added in ML and as well as provided the Special lab for ML which is learn from the basic level
16	Teaching is good

Suggestion for Semester - IV	
1	All correct
2	All covered
3	clear all
4	everything is covered and easy to understand
5	Everything is good
6	Good

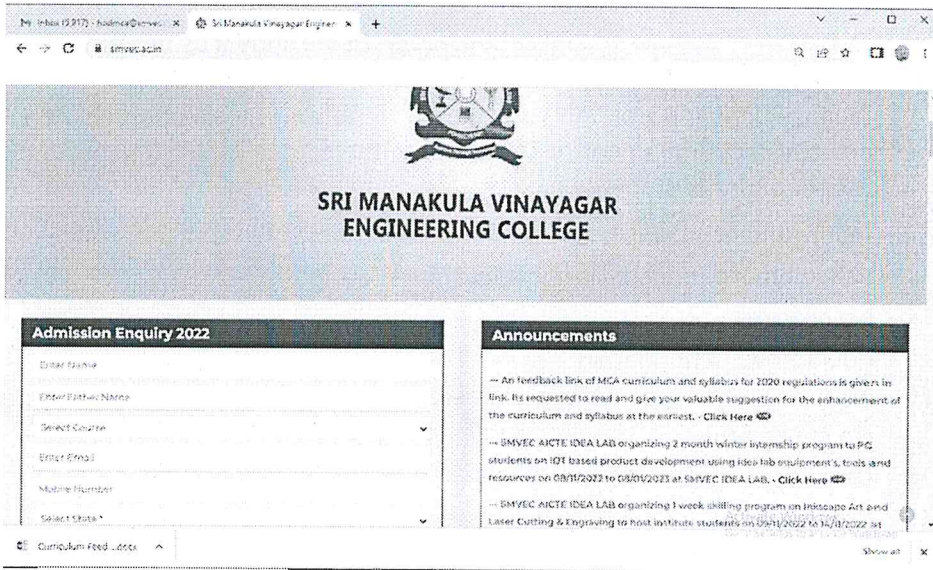

7	Good
8	Good
9	In Final semester only project will be helpful for us, so that we can concentrate more in project. As we are doing industrial projects companies are expecting us to come whole week. In our batch there was a situation we need to come to college for 3 days. As master of computer applications students we should be permitted for internship.
10	Management concept and strategic is not relevant
11	Management concept and strategies. It is irrelevant to this degree. And remove all the EEC course and add technical paper to the enhance the course each lab paper proper lab facilities has to be assigned for the students.
12	Management concepts for computer applications - is not a preferable one!
13	management concepts is not relevant
14	No changes
15	no improvement needed
16	No need to change anything, all topics are relevant to course.
17	No suggestions
18	Office automation
19	Office automation and modern tools
20	Office automation and modern tools paper is the basic subject that every student must have learned at their under graduation. So as per my opinion, it will be better for the students if you could replace this subject with any other programming language or technical paper.
21	Office automation and tools
22	Please Remove Elective Course, Add Technical paper
23	Sir I want to say that generally everyone knows about the office automation too. If having the possibility then in the 3rd semester or 4th semester added ML
24	Yes

**(b) Evaluation and Report of Students Feedback:**

Semester	Consolidated Feedback (2020-2022 Batch)	Action Taken
I	1. Problem solving approach can make this paper in upgrade format in current technology. 2. Python Programming to be added as Subject.	To be discussed with BoS members in forthcoming BoS meeting
II	1. Required advancement in Java Programming (react JS, spring boot, etc.,) 2. Required advancements in Web Applications Development.	To be discussed with BoS members in forthcoming BoS meeting
III	1. Required to change the Professional Elective courses link Python, IoT etc., 2. Modify the syllabus on Machine Learning Course	To be discussed with BoS members in forthcoming BoS meeting
IV	1. Required to change the Office Automation Course 2. Required full Semester, only for Project Work	To be discussed with BoS members in forthcoming BoS meeting

Overall Feedback for all Semester by Students	No Changes	None	Nil

S.No	Suggestions for Semester - I
1	Good
2	The courses listed are more relevant to the industry expectations. No more changes needed.
3	Not necessary
4	all topics were covered within 5 units
5	Please include some cloud based topics (both theory and practical) in regular curriculum
6	Nothing
7	The new Syllabus is Fine and meets the Industry knowledge requirement. The Students needs to work more on Labs by applying the theories they have learned.

8	NA
9	No
10	Properly structured all course in first semester.
11	Tally lab
12	Need improve the theory paper courses like as advanced web technologies and App management. CPP, Java are studied by UG also. Need to update the core paper like c# , python or other than latest language paper.
13	Python courses

S.No	Suggestions for Semester - II
1	Good
2	No modification needed
3	Not required
4	computer network lab missing, but it can be fulfilled by adding 3 to 4 network program into java lab
5	As mentioned in previous form please include cloud based topic (eg: AWS) in regular curriculum
6	Nil
7	This looks fine students must obtain deep knowledge on Data Structures and Algorithms rather than programming knowledge.
8	Nil
9	Advanced Data structures and Algorithms: Linked List can be completed in unit 2 and stacks and queues can be implemented using both techniques arrays and Linked lists. In unit 3 Trees could be the topic and could add more types of trees link M-way search tree, Red-Black trees and all.Could be included recurrence relations of trees
10	No
11	Curriculum helps to bridge the students with industry
12	No
13	Java to be update Advance java
14	Java

S.No	Suggestions for Semester - III
1	Good
2	Subjects are relevant. No changes needed
3	Not required
4	instead of C# and .net, Struts 2 may be added to cover the advanced java
5	Nil
6	Nothing
7	The Mini Project must be done by students themselves and must have at least one module that uses Machine Learning Algorithm in it, the module that uses Machine Learning may be any.

8	NA
9	No
10	More relevant technology based courses added . Try to add elective course according to company requirements.
11	No
12	Kindly alter c# as python
13	Java script

S.No	Suggestions for Semester - IV
1	Good
2	No More modification required.
3	Not necessary
4	no modification needed
5	Nil
6	Nothing
7	The students need to concentrate more on their project work and to be done by themselves only.
8	NA
9	No
10	Start industry relevant courses from the first semester onwards. This course to making students good employees
11	No
12	Nil
13	None

**(b) Evaluation and Report of Stakeholders Feedback:**

Semester	Consolidated Feedback	Action Taken
I	1. Add some Cloud based topics. 2.Add Programming Language like Python etc.,	To be discussed with BoS members in forthcoming BoS meeting
II	1.Change Java Programming as Advanced Java 2. Modify the syllabus of 2 <sup>nd</sup> and 3 <sup>rd</sup> Unit in Advanced Data Structures and algorithms. 3.Required Computer Networks Lab	To be discussed with BoS members in forthcoming BoS meeting
