In order to rise up to a level of a world class technical institution, Institute is making sufficient emphasis on encouraging technical creativity among the students and faculty members by promoting creativity among them.

The Design Innovation Centre (DIC) is constituted to sponsor and monitor the following kinds of technical projects:

- Short Term/Summer Projects (with duration around less than three months)
- Extended Projects/B.Tech Projects
- Projects proposed as the participating entries in International / National Events / Competitions of repute

Every participant in a Successfully Completed Project will be given a Certificate of Appreciation by the Institute.

The centre consists of:

- Administrative Committee
- Technical Committee

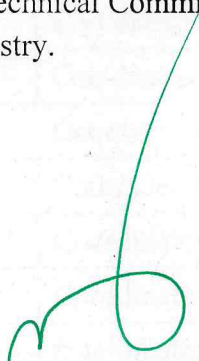

Composition of the Committee

The Admin Committee, constituted of 4 faculty members, is taking care of the procedural aspects of the DIC.

The Technical Committee consisting of one faculty members from each Department and is responsible to screen the technical merits of the submitted projects.

These Committees would be constituted by the Director of the Institute. DIC Technical Committee may also include External Members from Academia / Research Institutes / Industry.

Director cum Principal

Dr.V.S.K.Venkatachalapathy
