OBJECTIVES OF INTERNSHIP

Gain practical experience:
Gain hands-on experience and develop practical skills relevant to their field of study.

Explore career interests:
Gain insights into various roles, responsibilities, and industries, helping them make informed career choices in the future.

Develop professional skills:
Develop and enhance essential professional skills, such as communication, teamwork, problem-solving, time management, and adaptability

Expand network:
Opportunity to meet professionals in the field, builds relationships, and expands one's professional network.

Domain Knowledge
Ability to understand the concepts in Electronics and Communication Engineering and to apply to different fields, such as Consumer Electronics, Communications, Signal Processing, etc.

Understand workplace dynamics:
Expose students to the professional work environment, including office etiquette, teamwork, and organizational culture. Essential for a smooth transition from a student to a professional.

Embedded System Design:
Ability to design a system based on the technical knowledge gained for embedded applications in electronics and communications engineering.

Gain industry-specific knowledge:
Provides students with industry-specific knowledge, allowing them to understand the intricacies of their chosen field and stay up-to-date with industry developments.

Professional Competency: Ability to select cutting-edge engineering hardware and software tools to solvecomplex problems in Electronics and Communication Engineering
