AI CLUB ACTIVITY REPORT

2022-2023

AI CLUB

Objective

The objective is to equip the students with the ability and skills to analyze, design and develop computer systems and their applications. The focus will be on development and strengthening systems thinking, problem solving, analysis, design, research, team work and readiness for lifelong learning in areas of Artificial Intelligence, Machine Learning, Deep Learning, Applications in Healthcare and Smart Living, Speech Recognition and Natural Language Processing (NLP), Cyber Forensics, Bio-Informatics and Genomics, Smart Vehicles, Cancer Cell Detection and Drug Discovery. In this regard, we are into lead zonal partners of LeadingIndia.ai project – an initiative by Bennett University, Greater Noida in joint ventures with Microsoft, Google, Amazon, NVIDIA

AI Club Coordinators

Department Coordinators

1. Dr.T.Megala
2. Mrs.S.Deepa
3. MrArokiaraj Christian Saint Hubert

Student Co-ordinators:

SI NO	DATE	TITLE
1	05.11.2022	Exploring Ethical Considerations of AI&ML
2	26.11.2022	Internet of things(IOT) Transforming industries & Smart Cities
3	03.12.2022	Data science & Analytics: Power of Data Visualization & Predictive Analytics
4	28.12.2022	Robotics And Automation: Advancements & Implications
5	31.12.2022	Natural Language Processing (NLP): Advancement
6	03.06.2023	Unleash The Power of Machine Learning

CLUB ACTIVITIES - REPORT

DATE: 05.11.2022

DAY: Saturday

The TECHKNOCKS club organized a technical event that focused on "Artificial Intelligence and Machine learning". Through a series of informative talks and workshops, participants gained insights into topics such as exploring the advancements, applications, ethical considerations, impacts of AI and ML in various industries. The event provided a platform for students to expand and explore the knowledge in Artificial Intelligence and Machine Learning and network with industry professionals.

GUEST LECTURE ON -- Artificial Intelligence and Machine learning
DATE:05.11.22

OUTCOMES OF THE GUEST LECTURE

Through this guest lecture students were

- Introduced to the domain of “Artificial Intelligence and Machine Learning”.
- Provided a platform to enhance their knowledge in these fields.
- Motivated by professionals to further explore this domain and incorporate the concepts learnt in mini-projects.

Given an opportunity to interact with experts and get their valuable insights on improving technical skills in Artificial Intelligence and Machine Learning

GUEST LECTURE ON --INTERNET OF THINGS

DATE:26.11.22

OUTCOMES OF THE GUEST LECTURE

Attending this seminar, students were provided with:

- Immense knowledge on the domain of Internet Of Things.
- Insights on career prospects available in the industry and motivated the participants to pursue a career in the same
- Significance and Impacts of this domain in various other industries
- Technical concepts in order to integrate IOT in various domains and come up with revolutionising project ideas.
- Brief technical overview behind Smart cities.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CLUB ACTIVITIES - REPORT

DATE:03.12.22

DAY: Saturday

The club organized a technical event that focused on “Data science and analytics: Power of Data visualization & predictive analytics”. Through a series of lectures and workshops students got to practically explore the field of Data Science and Data visualisation. The event provided a platform for students to expand and explore the knowledge in Data science and encouraged them to gain further practical knowledge in the field.

GUEST LECTURE ON --DATA SCIENCE AND ANALYTIC
DATE:03.12.22

OUTCOMES OF THE GUEST LECTURE

Being a part of this guest lecture students:

- Were introduced to basic concepts of Data Science including the programming languages and mathematical concepts behind it.
- Gained the skills to extract insights from data, identify patterns, and visualize information effectively.
- Learnt to identify patterns, trends, and anomalies that may not be apparent through raw data alone, further driving the analysis and decision-making processes.
- Applied algorithms and models to make data-driven forecasts and anticipate trends.
- Enlightened on the impact of Data Visualisation and predictive analysis in making decisions, optimize operations, and identify opportunities or potential risks.

GUEST LECTURE ON --Robotics and automation

DATE: 28.12.22

OUTCOMES OF THIS GUEST LECTURE

Attending this Guest lecture, students were:

- Introduced to the fundamentals of Robotics& Automation and the various platforms available for exploring this domain
- Enlightened on the advantages of using Robotics and Automation thereby increasing speed and efficiency.
- Taught to implement robotics and automation thereby identifying opportunities for automation, design efficient systems, and contribute to cost reduction initiatives.
- Motivated to explore the integration of AI and ML algorithms into robotic systems, enabling robots to adapt, learn, and make intelligent decisions. Thus, enhancing the capabilities and efficiency of robotic systems.
- Encouraged to develop an interdisciplinary skill set that is highly valuable in today's technology-driven industries opening up diverse career opportunities and contributing to multidisciplinary projects.
- Made aware of the opportunities to establish a career in this domain.

- B. Participation and interaction were encouraged
- C. The topic covered were relevant
- D. The training experience will be useful in future

GUEST LECTURE ON- Natural Language Processing

DATE:31.12.2022

OUTCOMES OF THE GUEST LECTURE

Being a part of this session, students were:

- Introduced to the fundamentals of Machine Learning and Natural Language Processing.
- Taught the technical background working and implementation of NLP in various applications across industries
- Trained to develop simple, small projects like Chatbots, Virtual Assistants etc.
- Made aware of the various real-life applications of NLP in various domains such market & sentiment analysis on social media platforms, language translator, home assistants, assisting decision making processes, trend detection etc.,
- Ultimately enlightened on the impact NLP has created from simple speech recognition to opinion mining and its working.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING REPORT ON CLUB ACTIVITIES

DATE:03.06.2023
DAY: SATURDAY

DETAILS

The club organized a technical event along the theme of “Machine Learning”. Through a series of informative talks and workshops, participants got an opportunity to enhance their technical knowledge on progressive web applications in various industries. The event provided a platform for students to gain relevant knowledge under the guidance of industry experts.

GUEST LECTURE ON- Machine Learning (ML)
DATE:03.06.23

OUTCOME OF THE GUEST LECTURE

By attending the lecture on “Machine Learning (ML)”:

- Introduced on how can we implement machine learning.
- Expanded their insights in building a more efficient predictive Analysis tool.
- Discussed about the various algorithms used in the predictive software.
- Displayed a running model of one of the examples used to predict The weather.
- Encouraged students by inspiring them to the current software that use machine learning.
