**Submitted by
Mr. R.Suresh
Associate Professor
Faculty Coordinator**

iTECHLIGENCE CLUB

Smell the technical fragrance here.

2024-25

Date: 13.09.2024

OBJECTIVES

- Foster exploration of diverse technology domains.
- Create a collaborative social environment for tech enthusiasts.
- Encourage peer-to-peer knowledge sharing.
- Develop hands-on skills in cutting-edge technologies.
- Build a strong community of students with shared technology interests.
- Support innovation and problem-solving through teamwork.
- Promote interdisciplinary learning and collaboration.
- Keep students up to date with the latest industry trends.
- Provide opportunities for professional growth and networking.
- Inspire a passion for lifelong learning and technology-driven careers.

PROPOSED ACTION PLAN

- Establish specialized clubs for RPA, Blockchain, and AI to focus on industry-relevant skills.
- Partner with key industry players for curriculum design and development.
- Organize hands-on workshops and training sessions with industry professionals.
- Implement real-world projects guided by industry mentors.
- Host regular seminars and events featuring experts from industry partners.
- Facilitate certification programs in collaboration with organizations like IBM, Infosys, and CISCO.
-
