About IEIPSC

The Institution of Engineers (India), Puducherry State Centre was established on 31st July 2010 with the aim of promoting engineering excellence, professional development, and knowledge-sharing among engineers in the region. Since its inception, the centre has actively contributed to the advancement of the engineering profession through technical events, academic collaborations, and public service initiatives.

Our Vision

To be the leading professional institution in India for the advancement of engineering and technology for the benefit of the community, nation and mankind.

Our Mission

To promote and advance the science and practice of engineering and technology in all its branches and applications for the benefit of the community.

SUMMARY

During the reporting period **2023-2024**, the **IEI Students' Chapters** of Sri Manakula Vinayagar Engineering College organized a wide range of **academic, technical, and professional development activities**, demonstrating strong student engagement and effective departmental coordination. As per the IEI consolidated report, a total of **26 structured events** were conducted across **engineering departments**, namely **Instrumentation & Control Engineering (ICE), Electrical & Electronics Engineering (EEE), Electronics & Communication Engineering (ECE), Biomedical Engineering (BME), Computer Science & Engineering (CSE), Computer & Communication Engineering (CCE), and Information Technology (IT)**.

The activities covered diverse categories such as **national seminars, guest lectures, workshops, hands-on training programs, industrial and technical visits, poster and idea presentation competitions, technical quizzes, aptitude and reasoning activities, committee meetings, and student enrichment programs**. A major highlight of the quarter was the **Two-Day National Seminar on "Advancements in Instrumentation Engineering through Artificial Intelligence: Challenges and Opportunities"**, sponsored by **DST-SERB**, which provided valuable exposure to emerging AI-driven instrumentation technologies and fostered interaction with experts from reputed institutions.

Strong emphasis was placed on **experiential learning and industry exposure** through multiple **industrial and technical visits** to organizations such as **SMEC Automation Pvt. Ltd., CodeBind Technologies, VJ Biotech Pvt. Ltd., IROID Technologies, and Carnival Infopark**. These visits enabled students to gain firsthand understanding of real-time industrial practices, automation systems, software development environments, and biotechnology applications, thereby bridging the gap between classroom learning and industry requirements.

Skill development and student enrichment were further strengthened through **hands-on PLC training, design-oriented workshops (such as the Canva Workshop), poster and idea presentation competitions, technical quizzes, aptitude training, reasoning sessions, and communication-based activities like Just-a-Minute and Sudoku**. These programs significantly contributed to the enhancement of **technical competence, problem-solving ability, communication skills, teamwork, and placement readiness** among students. Department-level **committee meetings and technical club activities** ensured systematic planning, feedback collection, and continuous improvement of IEI initiatives.

Overall, the conduct of **26 diverse and outcome-oriented events within a single quarter** reflects a **highly active academic ecosystem** and a strong commitment to **industry-institute interaction, innovation, leadership development, and holistic student growth**. The activities conducted during this period effectively support **NBA, NAAC, IQAC, and IEI quality benchmarks**, reinforcing the institution's mission of preparing **competent, skilled, and industry-ready engineering graduates**.

The inaugural function of a two-day national seminar on "Advancements in Instrumentation Engineering through Artificial Intelligence: Challenges and Opportunities" held at Sri Manakula Vinayagar Engineering College (SMVEC) on January 24, 2024.

The seminar is being sponsored by the Department of Science and Technology (DST) and the Science and Engineering Research Board (SERB) of the Government of India. It is being organized in association with the Institution of Engineers (India) Puducherry State Center.

The Chief Guest for the seminar is Dr. Sabitha Ramakrishnan, Professor at the Madras Institute of Technology (MIT) in Chennai. The Chairman and Managing Director of SMVEC, Shri M. Dhanasekaran, will preside over the function. Dr. V. S. K. Venkatachalapathy, Director cum Principal of SMVEC, will welcome the guests. Dr. S. Thirougnaname, Chairman of the Institution of Engineers (India) Puducherry State Center, will deliver the presidential address.

Report

(maximum 250 words)

The guest lecture on Blockchain Technology: Transforming Industries Beyond Cryptocurrency was organized by the IT Dept. & IEI for the third-year IT students. The session was led by Dr.K.Sivaselvi, Data Scientist, Straive Technologies, Chennai. The lecture aimed to introduce the concept of Blockchain Technology: Transforming Industries Beyond Cryptocurrency, explain its benefits, and showcase some real-world applications. The guest lecture on Blockchain Technology: Transforming Industries Beyond Cryptocurrency was informative and engaging. The speaker provided a clear and concise overview of Blockchain Technology: Transforming Industries Beyond Cryptocurrency. The lecture was well-received by the audience, and many attendees expressed their interest in learning more about Blockchain Technology and its potential applications.

ICE department organizes the Industrial visit at SMEC Automation Pvt. Ltd, **cochin** on 22.03.2024 for the second year students.

Details:
Report

The ICE department organized an industrial visit to SMEC Automation Pvt. Ltd in Cochin on March 22, 2024, for second-year students. Students had the opportunity to explore real-world applications of their coursework in automation technology. The visit provided valuable insights into industry practices and enhanced their understanding of theoretical concepts. SMEC Automation Pvt. Ltd showcased its cutting-edge technologies and manufacturing processes, inspiring students to pursue excellence in their field. Overall, the visit was a significant learning experience for the students, bridging the gap between academia and industry.

ICE department organizes the Industrial visit at Code bind technologies on 23.03.2024 for the first year students

Details:
Report

The ICE department arranged an industrial visit to Code Bind Technologies on March 23, 2024, catering to first-year students. This initiative aimed to acquaint students with practical applications of coding and technology right from the beginning of their academic journey. At Code Bind Technologies, students gained firsthand exposure to software development processes and innovative solutions. The visit fostered an environment for students to interact with industry professionals and explore potential career paths in the tech sector. Overall, it was a fruitful experience, laying a strong foundation for their future endeavors in the field of information and communication engineering.

Report

The ICE department conducted a two-day hands-on training session for third-year ICE students, focusing on "Mastering the fundamentals of PLC Programming." The training was led by Mr. Amirtha Ganesh, Chief Product Officer at Armada Industrial Automation, on March 14th and 15th, 2024. The session aimed to equip students with essential skills in Programmable Logic Controller (PLC) programming, a crucial aspect of modern industrial automation. Through practical exercises and interactive sessions, students delved into the intricacies of PLC programming under the guidance of an industry expert. Mr. Amirtha Ganesh's extensive experience brought real-world insights into the classroom, enhancing students' understanding of industrial automation principles. The training not only deepened students' theoretical knowledge but also provided them with valuable hands-on experience, preparing them for future career opportunities in the field. Overall, it was a highly enriching and impactful learning experience for the third-year ICE students.

Report

A Poster Presentation was organized under the theme " Engineering Solutions for Sustainable World " for all engineering students. The IEI coordinators facilitated department-level poster presentations, selecting the top three teams from each department. Subsequently, an inter-departmental poster presentation took place in the Seminar Hall, EEE Department from 10:00 AM to 12:00 PM, featuring the best teams from each department showcasing their innovative solutions for Sustainable World.

126 teams from various Engineering disciplines were participated in poster presentation on the theme Engineering Solutions for a Sustainable world and 36 teams were shortlisted for second round. The five teams were awarded with cash prizes and certificates by the Chief Guest. Finally, Dr.G.Ganesan @ Subramanian, MIE, Honorary Secretary, IE(I),PSC delivered the vote of thanks.

Techbuzz featured a wide range of questions covering different areas of engineering principles. The quiz promoted friendly competition, motivating participants to explore their knowledge and skills further.</p> <p>In addition to the quiz, Techbuzz included interactive problem-solving sessions where students collaborated to tackle engineering challenges. These sessions enabled teamwork and critical thinking among the participants</p> <p>The event showcased the dedication of both organizers and participants, contributing to a vibrant learning atmosphere. It concluded successfully with increased engagement and gathered positive feedback from the attendees, underscoring its value in fostering technical proficiency and companionship among first-year students.</p>

Report

The Canva workshop organized by the ECE department on March 08, 2024, for first-year students was a amazing success, and excited participation from attendees. Through interactive sessions and hands-on demonstrations, participants acquired practical skills in graphic design and visual communication using the versatile Canva platform.

Students were actively engaged throughout the workshop, given opportunities to work on multiple designs and various mini projects using Canva. This hands-on experience allowed them to fully utilize the software and gain a complete understanding of its capabilities.

Title /Theme: Aquatic Solutions Contest: Innovations in water and wastewater solution Idea Presentation
Date : 12.03.2024
Duration: 1 Day
No of Students Participated: 40

Details:

Report

The ECE department organized an Idea Presentation Competition for first and second-year students, focusing on the theme of "Aquatic Solutions: Innovation in Water and Wastewater Solutions" was conducted on 12th March 2024. The event aimed to improve students' skills in paper presentation and PowerPoint slide preparation.

Throughout the session, participants not only showcased their projects but also engaged in insightful discussions with judges and other audience members. This interaction allowed students to deepen their understanding of their projects and gain valuable insights from various perspectives.

Report

The ECE department organized a technical seminar focusing on the topic of "Design and Analysis of FM Antenna" for second-year students on March 24, 2024. During this seminar, the intricacies of modulation techniques were expertly clarified by the IEI student coordinator to the eager audience. The seminar created curiosity among the students, inspiring them to explore deeper into the attractive field of antennas and modulation principles. The coordinator's delivery was not only informative but also a friendly learning atmosphere like a peer-to-peer interaction.

Overall, the seminar proved to be a valuable learning experience, leaving an impact on the students' understanding of FM antennas and modulation, while also encouraging a collaborative learning environment within the department.

Report

The ECE department organized a non-technical activity titled "Electronics Equation Expedition Memory Challenge" for first-year students on March 30, 2024. The event aimed to improve students' understanding of famous equations in electronics, along with the names of the scientists associated with them.

Participants were tasked with learning about famous equations and the corresponding scientists and their derivations or formulas. On the day of the event, coordinators were presented with slides containing questions designed to enable active learning and engagement. These questions not only tested their knowledge but also encouraged deeper exploration and curiosity. Overall, the Electronics Equation Expedition Memory Challenge successfully fostered a dynamic learning environment, encouraging active participation and the acquisition of valuable knowledge among first-year students in the ECE department.
