ABOUT INSTITUTION

Sri Manakula Vinayagar Engineering College, affiliated to Pondicherry University is among the best engineering college in Pondicherry and Tamilnadu. It was established in the year 1999 under the umbrella of Sri Manakula Vinayaga Educational Trust, with a vision to offer quality and affordable technical education to the weaker sections of the society. The institution has obtained autonomous status in the year 2019 and commemorated its Silver Jubilee in the field of educational excellence. At the apex of its standardization, the institute has been accredited by National Assessment and Accreditation Council (NAAC) with “A” grade.

To add an additional feather to the crown of SMVEC, all the eligible B.Tech Engineering programs offered are accredited by National Board of Accreditation (NBA), New Delhi. Besides, the institute is accredited by a global multinational company TCS. As one of the best engineering colleges in Pondicherry and a contender among the top private engineering colleges in Pondicherry, SMVEC stands out for its quality and commitment to education.

Vision

- To be recognized globally for providing high-quality education, innovation, and research.
- To transform lives and serve society.

Mission

The institution aims to provide:

- Quality education that combines cutting-edge technologies with best practices.
- Research and innovation that is value-based and collaborative with industries and institutions around the world.
- Employability and entrepreneurship skills through value and skill-based training.
- Ethical values that blend societal righteousness with academic professionalism.

VISION & MISSION OF THE DEPARTMENT

Vision

To achieve academic excellence in Computer Science and Engineering by imparting in-depth knowledge to the students, facilitating research activities and cater to the ever changing industrial demands and societal needs.

Mission

- M1: Quality Education: Empowering the students with the necessary technical skills through quality education to grow professionally.
- M2: Innovative Research: Advocating the innovative research ideas by incorporating with industries for developing products and services.
- M3: Placement and Entrepreneurship: Advancing the education by strengthening the Industry-Academic relationship through hands-on training to seek placement in the top most industries or to develop a start - ups.
- M4: Ethics and Social Responsibilities: Stimulating professional behaviour and good ethical values to improve the leadership skills and social responsibilities.

Facilities

JAVA & LINUX PROGRAMMING LAB

This lab is intended for novice programmers, with 106 computers. B.Tech & M.Tech students make use of this lab efficiently. Students utilize this lab, for Computer Networking, Operating System and some interactive Campus Training Programs.

Fully equipped air conditioned lab with 114 computers is available to the students make use in an innovative manner. Practical are based on Platform Technology, Web Technology, Object Oriented Programming, Data Structures, Database Management System, Algorithm Lab and Distributed Computing.

HARDWARE CONFIGURATION

- INTEL Core i3-2100 @ 3.1GHZ
- 2GB PC3-10600 DDR3 1330 MHZ DIMM MEMORY
- 320 GB SATA @ 7200 RPM HARDDISK

DEPARTMENT LIBRARY

Student's place to explore technology.

- Number of Books : 782
- National Journals : 26
- International Journal : 26
- CDs, VCDs, Multimedia : 375

Activities

The Department library books are available for reference. The books are also given to the students and staff on request. The students can use the digital volumes of various materials available for reference. The Digital contents can be obtained from the library for reproduction.

B.TECH COMPUTER SCIENCE & ENGINEERING

B.Tech Computer Science course is designed to offer a clear understanding of the basic concepts and principles of Computer Science and specialized skill sets required to design, develop and handle the projects required by the IT Companies. The course almost covers all the core subjects in Computer Science domain.

ADMISSION PROCEDURE

Admission to B.Tech is based on the marks, scored by the students in Maths, Physics & Chemistry or Computer Science during their Higher Secondary Board Examination. According to those marks, the CENTAC allocates seats to the students, and also the students are allowed to join through Management Quota.

- DURATION: 4 Years / 8 Semester
- No. of Subjects: Hardcore: 43, Softcore: 23
- Intake: 180

M.TECH COMPUTER SCIENCE & ENGINEERING

The course structures for M.Tech in Computer Science and Engineering is designed to enhance the skills of Computer Professionals, particularly towards Research and Development. As a highlight of the curriculum, Project work of the last two semesters has provided an ample opportunity to the students to carry out intensive work, on a chosen topic.

ADMISSION PROCEDURE

Admission to M.Tech Computer Science and Engineering Programme is based on the performance in the Entrance Examination. The entrance examination paper consists of 100 objective questions.

- DURATION: 4 Years / 8 Semester
- No. of Subjects: Hardcore: 13, Softcore: 3
- Intake: 24
